Line Number

1. The Bermuda Triangle is a mysterious area of the Atlantic Ocean, forming a triangle between
2. Miami (Florida), Bermuda, and San Juan (Puerto Rico). For many years, this region has been known
3. for strange events. Ships and airplanes have disappeared without a **trace**, and people have wondered
4. why. Because of this, the Bermuda Triangle is often called the “Devil’s Triangle”.

5. One of the most famous stories is about Flight 19. In December 1945, five U.S. Navy planes left
6. Florida for a training mission. Everything was going well, but later the pilots radioed that they were
7. lost and could not tell where they were. The communication became weaker and then stopped
8. completely. The planes were never seen again, and the rescue plane that went looking for them also
9. disappeared. This event shocked the world.

10. Over the years, many ships and planes have been lost in the Bermuda Triangle. Some people
11. believe there are natural causes. For example, strong storms can appear suddenly and cause ships to
12. sink or planes to crash. Others think the area has magnetic forces that confuse compasses and
13. instruments. This might make it hard for pilots and sailors to know where they are going.

14. There are also more unusual theories. Some people say that aliens or UFOs cause the
15. disappearances. Others believe there is an underwater city like Atlantis, which pulls ships underwater.
16. These ideas are exciting, but there is no scientific proof to support **them**. Another idea is that large
17. bubbles of gas, such as methane, rise from the ocean floor and cause ships to sink. These bubbles can
18. reduce the water’s density, making it hard for a ship to float. While this theory is based on real science,
19. it has not been clearly **linked** to the events in the Bermuda Triangle. Still, it shows how nature might
20. play a bigger role than we think.

21. Scientists have studied the area for many years. Some of them say that the number of accidents
22. in the Bermuda Triangle is not higher than in other busy parts of the ocean. They believe people just
23. notice these events more because of the stories. Also, many ships and planes pass through the area
24. every day without any problems.

25. Tourism in the Bermuda region is very popular today. Cruise ships and flights travel through it
26. all the time. Most travelers don’t worry about the old legends and enjoy the beautiful beaches and
27. clear blue water. For many people, the Bermuda Triangle is more of a mystery from the past than a
28. real danger today.

29. So, is the Bermuda Triangle really dangerous? Or is it just a story made more interesting by
30. mystery and imagination? The truth is that we still don’t know exactly why some things happen there.
31. But with better technology and more research, we may understand more in the future.

1 The Bermuda Triangle is called the “Devil’s Triangle” because

- a) strange and shocking things have happened there.
- b) it belonged to the devil in the past.
- c) a dangerous animal like a devil has lived there.
- d) ships and airplanes are often found in this area.

2 The word ***trace*** in line 3 can best be replaced by

- a) footprint
- b) evidence
- c) sign
- d) copy

3 According to Paragraph 2 (lines 5-9), the rescue plane sent for Flight 19

- a) found the missing planes.
- b) got lost too.
- c) crashed on land.
- d) disappeared during a training mission.

4 Which of the following is **NOT** mentioned as a cause for the disappearance of ships and planes?

- a) Sudden strong storms
- b) Magnetic forces affecting navigation
- c) Large gas bubbles from the ocean floor
- d) Pilots and sailors

5 The sentence “*The number of accidents in the Bermuda Triangle is not higher than in other busy parts of the ocean*” shows that

- a) the Bermuda Triangle is more dangerous than other ocean areas.
- b) accidents in the Bermuda Triangle are always increasing.
- c) other ocean areas are just as safe as the Bermuda Triangle.
- d) other parts of the ocean are no less dangerous than the Bermuda Triangle

6 The word ***linked*** in line 19 is **NOT** synonymous to

- a) connected
- b) related
- c) mentioned
- d) tied

7 People still find the Bermuda Triangle interesting

- a) because it’s always dangerous.
- b) because no one can travel there now.
- c) because of the mystery and unusual stories.
- d) because many people live there.

8 The pronoun *them* in line 16 refers to

- a) ideas
- b) ships
- c) disappearances
- d) aliens

9 Which of the following statements is **TRUE**, according to the text?

- a) Some natural causes may explain the disappearances.
- b) The mystery of the Bermuda Triangle has been completely solved.
- c) All scientists agree that UFOs are the cause of the accidents.
- d) No planes or ships travel through the Bermuda Triangle today.

10 What does the text say about tourism in the Bermuda Triangle area?

- a) Tourists are not allowed to visit the region.
- b) Only scientists travel there now.
- c) Many people still visit the area, and most trips are safe.
- d) Tourism has completely stopped due to danger.
